Product explosion diagram

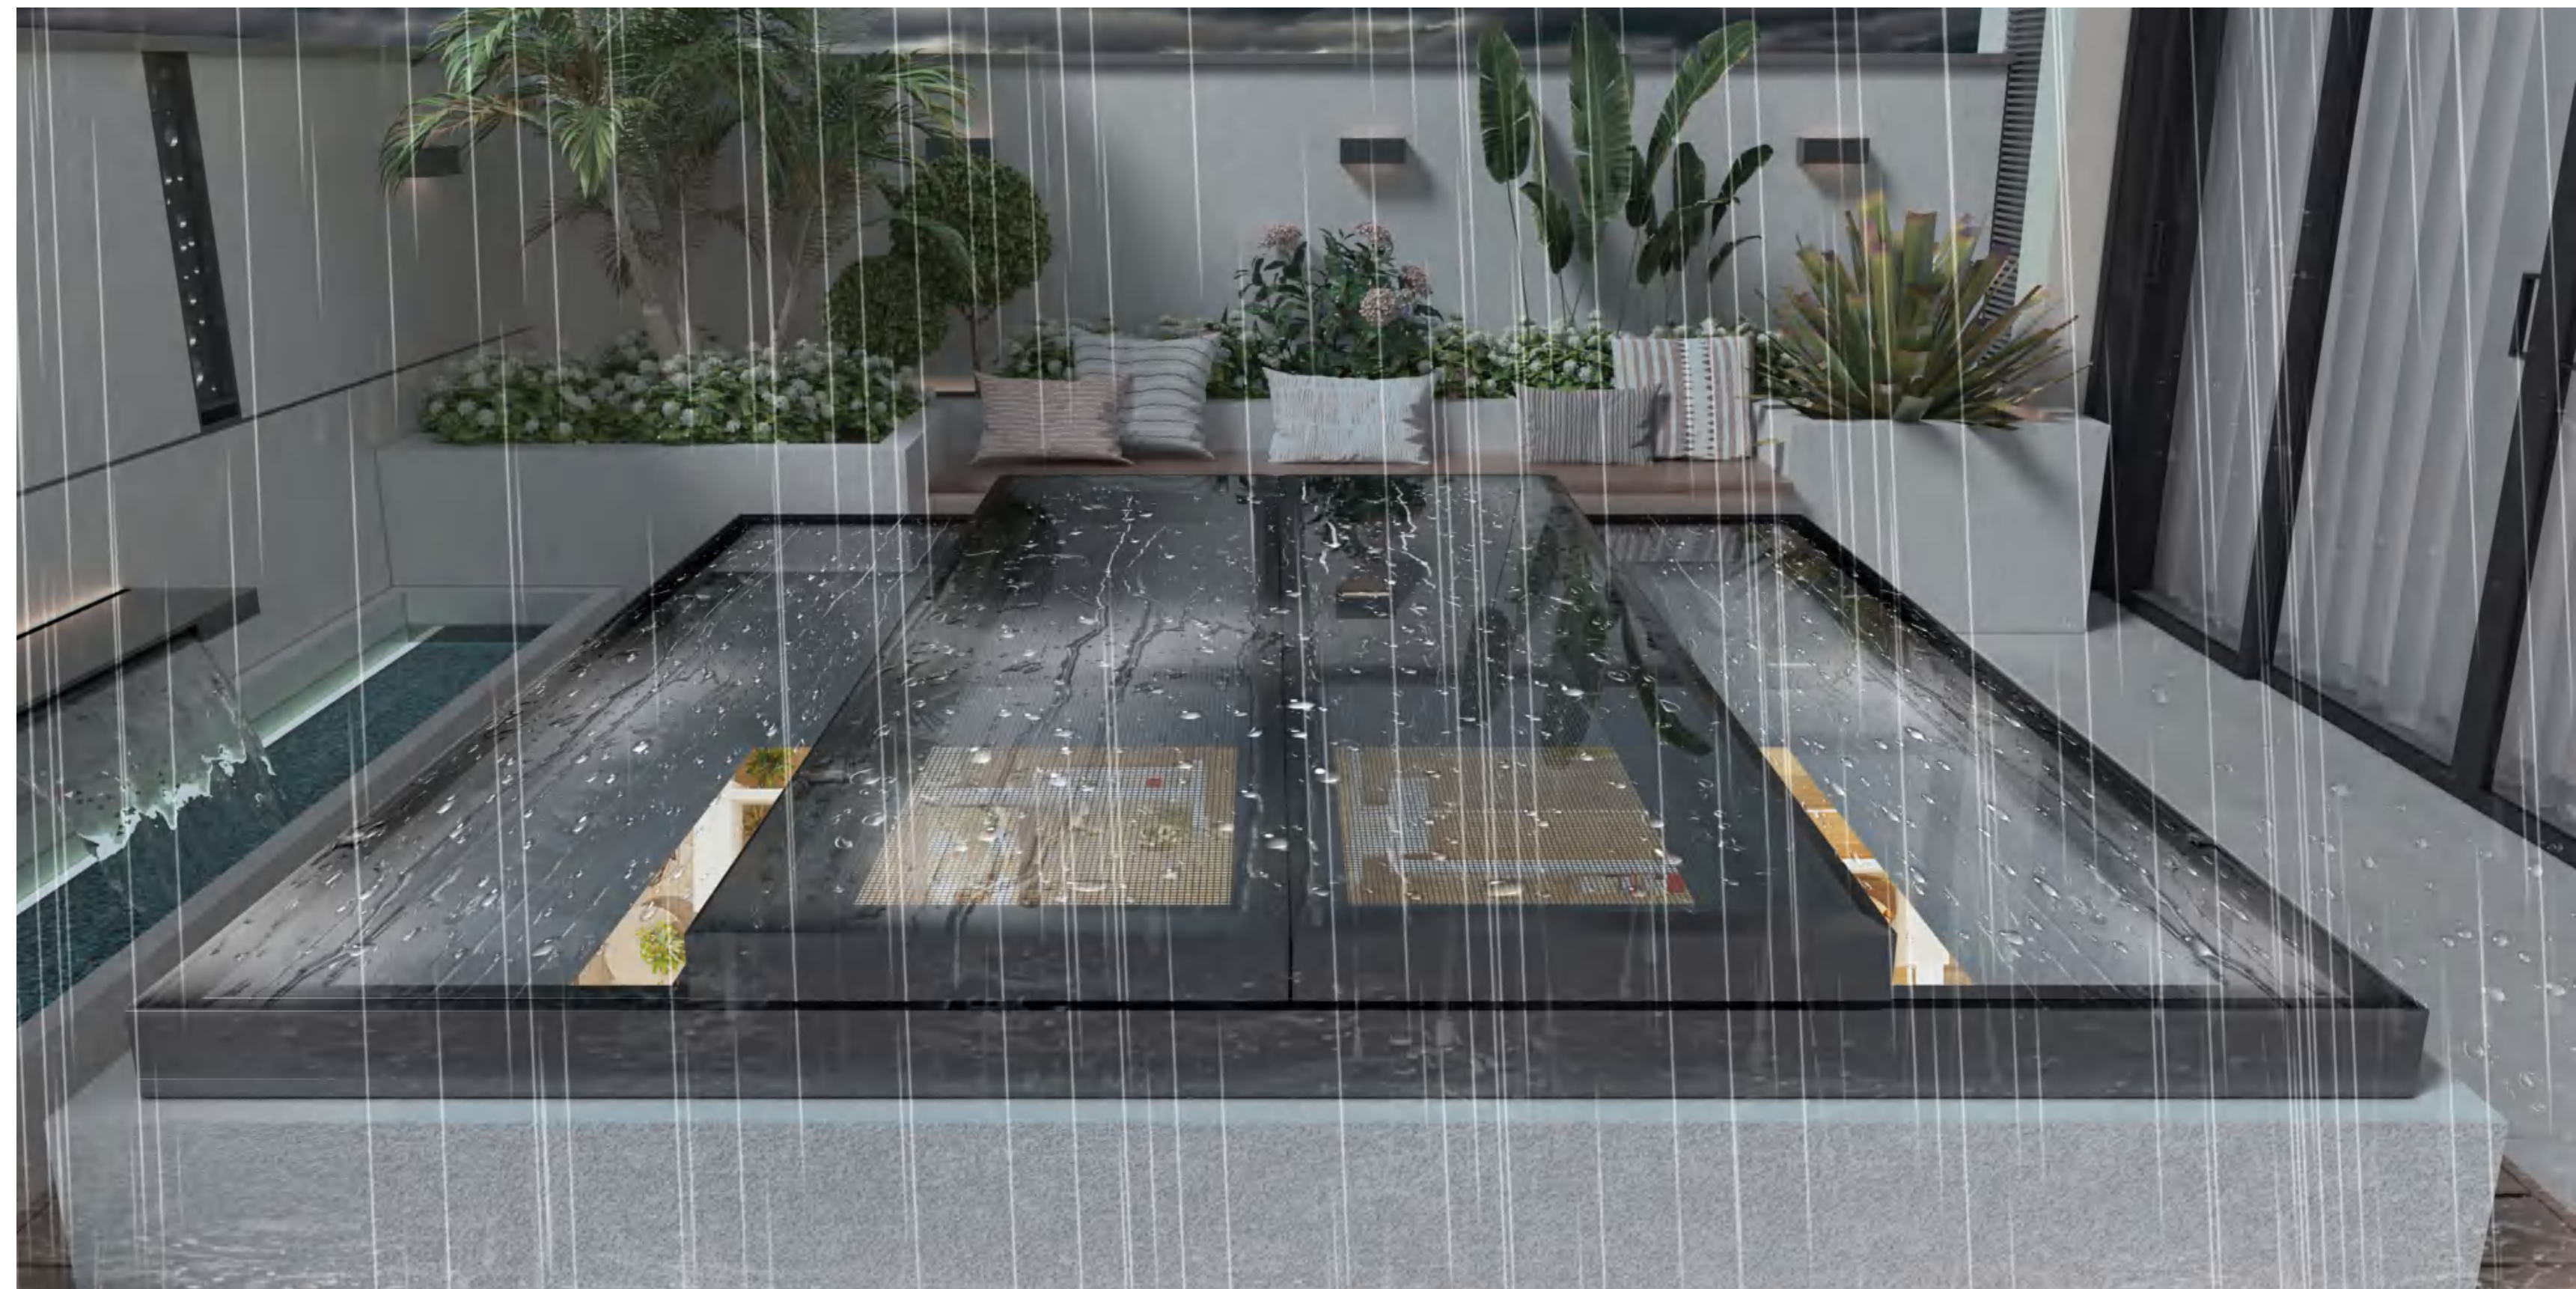

Remove the core of each door and window, integrate safety, energy saving and intelligence, and reshape the comfortable space.

Protection system

A variety of waterproof systems are precisely configured to provide all-round protection for your home, making it refreshing and comfortable every day.

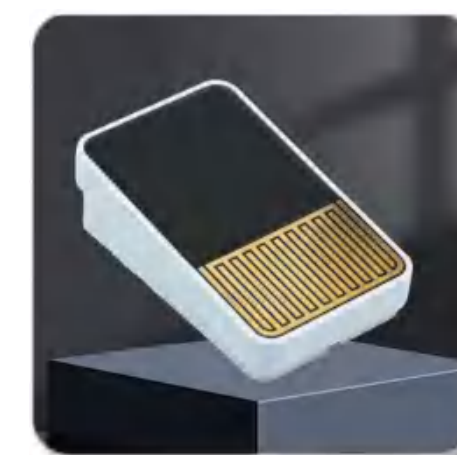

Three layer System
waterproof,Closed Protection

Wireless rain sensor

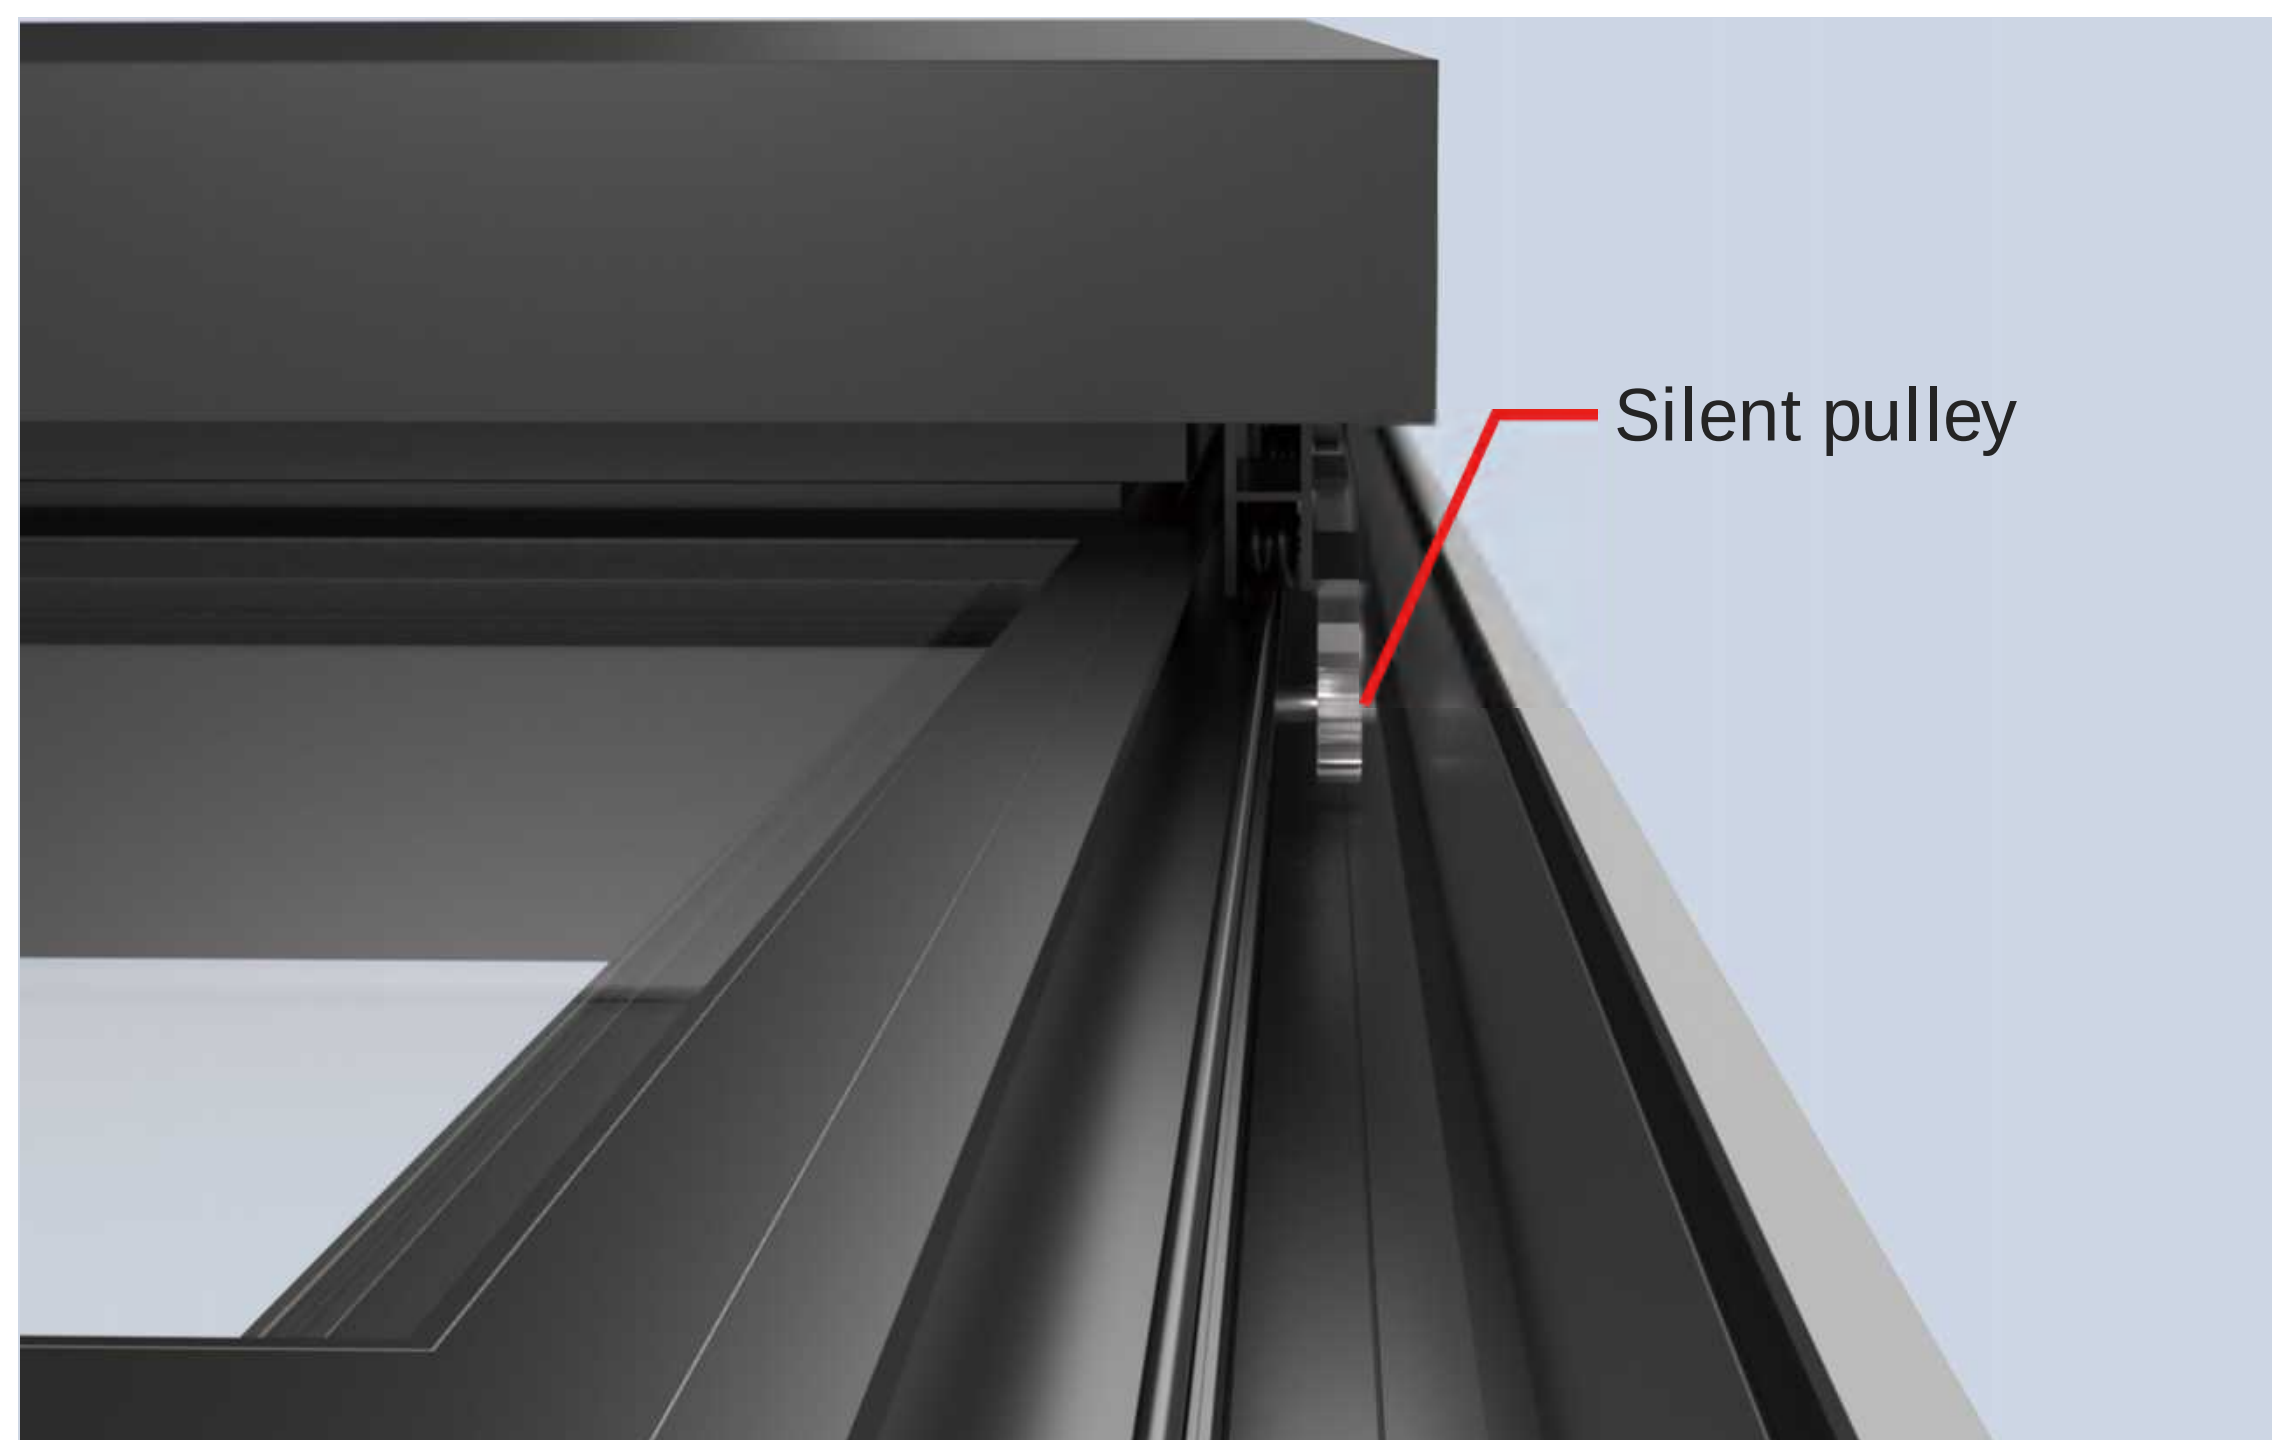

Wind, light and rain sensor

Solar Rain Sensor

Optional rain sensor

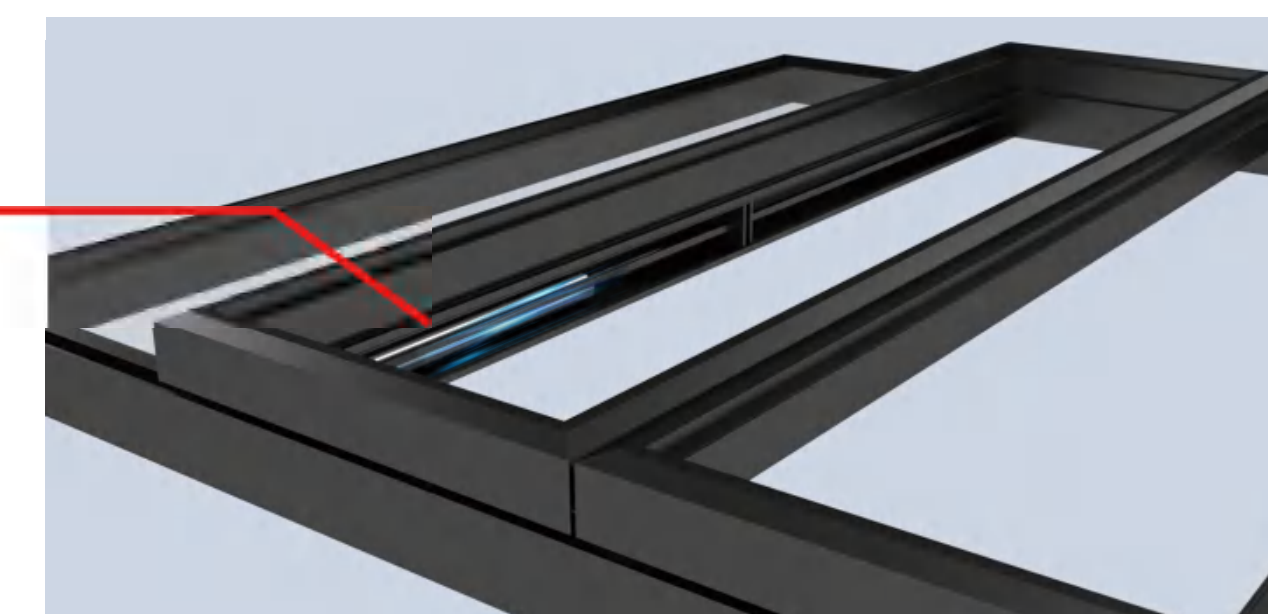

The smart rain sensor senses weather changes in real time and automatically closes windows to protect your home from rain, easily and conveniently.

Patent Electric Motor

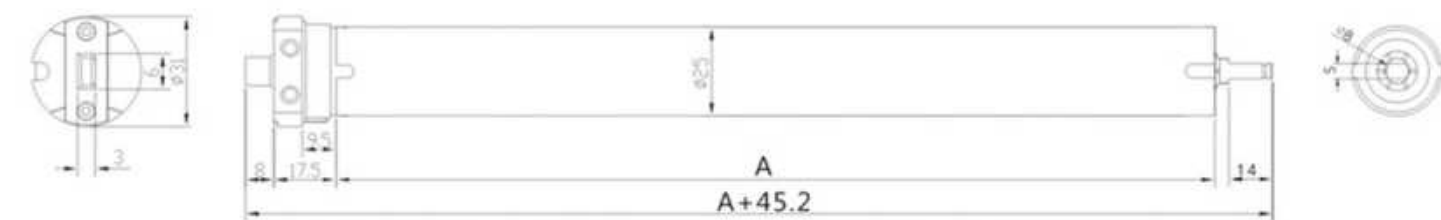

- The tubular motor drives the gear to move on the rack to provide power to the fan.
- At the same time, the fan uses a silent pulley.
- Runs smoothly along the rotation of the gear on the stainless steel track of the window frame.

DC Tubular motor

DC Tubular motor

- ✓ DC power supply
- ✓ Mechanical limit
- ✓ Ultra-quiet design

Drive shaft

Limit head

Intelligent control system

One-touch control to open and close your skylight, easy operation even in high or hard-to-reach places.

Stainless Steel Security Mesh

Made of high-strength stainless steel, it is corrosion-resistant, anti-oxidation and durable. It effectively blocks mosquitoes and provides you with a comfortable and fresh living environment.
